

DUFAVIT AD3E 100/20/20 ORAL

Composition:

Contains per ml solution:

Retinyl palmitate (A)..... 100,000 IU
Cholecalciferol (D3)20,000 IU
 α -Tocopherol acetate (E) 20 mg

Description:

Vitamin A, D3 and E are essential for optimal growth and production.

Vitamin A contributes to healthy immune function, bone health and cell integrity.

Vitamin D helps regulate calcium and phosphorus, and contributes to bone health, immune function and cell growth.

Vitamin E functions as an antioxidant to neutralize free radicals, and contributes to healthy immune function and maintenance of cardiovascular health.

Indications:

Treatment and prevention of vitamin A, D3 and/or E deficiencies in livestock.

Dosage and administration:

For administration in drinking water.

Recommended dose levels:

- Cattle: 2.5-10 ml per 100 kg body weight, for 3-5 days, as required;
- Horses: 1-2 ml per 100 kg body weight, for 3-5 days, as required;
- Sheep and goats: 3 ml per 50 kg body weight, for 3-5 days, as required;
- Swine: 2-3 ml per 100 kg body weight, for 3-5 days, as required;
- Poultry: 150-300 ml per 1000 litres of drinking water, for 5-7 days, as required.

Once diluted, Dufavit AD3E 100/20/20 Oral should be used immediately and refreshed every 24 hours for the duration of the treatment.
