Description:

DufaMix Orego is a premixture that consists of oregano on a carrier. This premixture is suitable for several animal species. Oregano extracts are known for their broad spectrum of antimicrobial and antifungal activity and enhancement of immune system functions. Oregano improves animal performance and will result in a lower medicine use and better manure consistency.

Directions for use:

If DufaMix Orega is used as a premixture, the advised inclusion rate is 300 g / tonne of feed.

Storage conditions:

Store dry, dark and below 25°C. Do not freeze.

Packing:

10 kg sacks.
