

BROILER POWERSTART

Analytical constituents:

22.3 % Crude protein	5.60 % Crude ash	0.55 % Phosphorus
6.50 % Crude fat	0.90 % Calcium	1.39 % Lysine
3.50 % Crude fibre	0.15 % Sodium	0.65 % Methionine

Composition (per kg):

Maize; Soya(bean) extracted, toasted (produced from GM soya); Wheat; Rape seed meal; Fish meal; Oats; Vegetable oil and fat (soya, crude); Wheat feed; Calcium carbonate; crude Lecithins; acid oils from chemical refining (soya produced from GM soya); Mono calcium phosphate; Sodium chloride; Sodium bicarbonate.

Additives (per kg)

Nutritional additives

Trace elements: 61 mg Fe (3b103 Iron(II)sulphate monohydrate); 15 mg Cu (3b405 Copper(II) sulphate-pentahydrate); 132 mg Mn (3b502 Manganese(II)oxide); 71 mg Zn (3b605 Zinc sulphate monohydrate); 0.3 mg Se (3b801 Sodium selenite); 1 mg I (3b202 Calcium iodide)
Vitamins: 15,000 IU Vitamin A (3a672a Retinyl acetate); 3,600 IU Vitamin D3 (3a671); 92 mg Vitamin E (3a700i all-rac-alpha-tocopheryl acetate).

Zootechnical additives

Digestibility enhancers: 1010 FTU 6-Phytase (EC 3.1.3.26) (4a19); 566 TXU Endo-1,4- β -xylanase (EC 3.2.1.8) (4a7); 253 TGU Endo-1,4- β -glucanase (EC 3.2.1.4) (4a7).
Coccidiostatics: 60 mg Salinomycin sodium (51766)

Description:

DufaFeed Broiler Powerstart is a fortified pelleted compound feed supplying extra energy, minerals, vitamins, and most importantly certain additives for enhanced gastrointestinal health. Early nutrition plays a vital role in early life and productivity of broilers. In first week of life maximum growth (approximately 20% of total) occurs. A strong positive correlation exists between first week live weight and finishing weight at the end of production cycle.

DufaFeed Broiler Powerstart has been formulated to benefit broilers in terms of reduced mortality and enhanced growth. An anti-coccidial, as well as enzymes and non-antibiotic growth enhancers are included for improved feed conversion, digestion and the reduction of wet droppings.

Instructions for use:

Feed free choice to chicks up to approximately 5 days of age. Minimum 100 g per bird.

Storage conditions:

Store dry, dark and below 25°C. Do not freeze.

Packing:

25 kg sacks.
