

## **CALF MILK-REP**

### **Analytical constituents:**

20.0 % ..... Crude protein	9.50 % .....Crude ash	0.60 %..... Sodium
16.0 % ..... Crude fat	0.80 % ..... Calcium	0.60 %..... Phosphorus
0.50 % ..... Crude fibre	0.20 % .....Magnesium	

### **Composition:**

Whey powder, Soya protein (produced from GM soya), vegetable oils (palm, coconut), delactosed whey powder, hydrolysed wheat protein, glucose.

### Additives (per kg)

#### Nutritional additives

Trace elements: 100 mg Fe (3b103Iron(II)sulphate monohydrate); 1 mg I (3b202 Calcium iodate anhydrous); 5 mg Cu (3b405 Copper(II) sulphate-pentahydrate); 50 mg Mn (3b503 Manganous sulphate monohydrate); 50 mg Zn (3b605 Zinc sulphate monohydrate); 0.25 mg Se (3b801 Sodium selenite)

Vitamins: 25,000 IU Vitamin A (3a672a Retinyl acetate); 5,000 IU Vitamin D3 (3a671); 150 mg Vitamin E (3a700i all-rac-alfa-tocoferylacetate); 200 mg Vitamin C (3a311 Sodium ascorbyl phosphate)

#### Technological additives

38 mg B.H.T. (E321 Butylated hydroxytoluene), 1216 mg Calciumformate (1a238)

### **Description:**

DufaFeed Calf Milk-Rep is a high-quality and easy to-mix milk replacer for young calves, designed to provide an ideal ratio of protein to energy and minimise the risk of malabsorption. Calf Milk-Rep will prevent the transmission of disease from cow to calf through unpasteurized milk thus improving biosecurity, as well as stimulating calf growth and performance equal to or even greater than that attainable on whole milk.

### **Instructions for use:**

This milk-replacer may only be fed to growing non-ruminating calves after colostrum uptake is complete. Make sure all utensils are clean before use. Measure the required quantity of Calf Milk-Rep (125 g per litre) and add half the required volume of warm water (40°C); stir gently until fully dissolved. Then add the remaining quantity of water (warm or cold) to required volume and stir to ensure a homogenous mix. Feed at 36°C - 40 °C (body temperature).

Fresh water must always be available.

Mix only enough solution for one feeding at a time.

### **Storage conditions:**

Store dark and dry below 25°C. Do not freeze.

### **Packing:**

10 kg and 25 kg sacks.
