

GOAT DELI-LICK

Analytical constituents:

85.2 %	Crude ash	10.4 %	Calcium
0.60 %	Crude protein	6.00 %	Magnesium
0.00 %	Crude fibre	15.0 %	Sodium
0.00 %	Crude fat	3.00 %	Phosphorous

Composition:

Sodium chloride, Calcium carbonate, Molasses, Mono calcium phosphate, Magnesium oxide, Magnesium phosphate.

Additives (per kg):

Nutritional additives:

Trace elements:

50 mg I (3b202 Calcium Iodide);

25 mg Co (3b304 Coated granulated cobalt (II) carbonate);

750 mg Cu (3b405 Cupric(II)sulphate-pentahydrate);

1,500 mg Mn (3b503 Manganous sulphate monohydrate);

3,000 mg Zn (3b605 Zinc sulphate);

40 mg Se (3b801 Sodium Selenite)

Vitamins:

100,000 IU Vitamin A (3a672a Retinyl acetate);

20,000 IU Vitamin D3 (3a671);

250 mg Vitamin E (3a700i all-rac-alfa-tocoferylacetate)

Description:

The weather resistant bucket specially designed for goats. The goat as a typical browser needs some extra minerals, vitamins and trace elements for an optimal health status. The DufaFeed Goat Deli-Lick bucket include copper to avoid shortage.

Directions for use:

1 bucket per 10 goats. 25 - 50 g per goat per day. Place the bucket at a solid place, free available for the goat.

Precaution:

This product contains copper at levels that may be toxic to sheep!

Packing:

15 kg bucket.
